Professional Summary

Software Developer (3+ yrs) with strong programming skills in React.js and TypeScript/JavaScript (ES6+), designing and developing high-quality, testable, and scalable UI solutions within established R&D timelines. Experienced collaborating with cross-functional stakeholders – product managers, designers, and remote teams – to translate business requirements into shipped features, with a consistent record of ensuring quality through functional and performance testing.

Technical Skills

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux, Context API, Component-Based Architecture, Responsive Design
Backend: Node.js, Express.js, RESTful API Development, GraphQL
Testing: Jest, React Testing Library, Unit Testing, Functional Testing, Performance Testing
Tools: Git, GitHub, GitLab, CI/CD Pipelines, Postman, NPM, Webpack
Methodologies: Agile/Scrum, SDLC, Code Review, Cross-Functional Collaboration

Professional Experience

NOVATEKNO – Software Developer (ReactJS) Mar 2024 – Present, Pune

- Design and develop high-quality, scalable React.js and TypeScript UI components for a healthcare product, adhering to established R&D best practices and coding standards.
- Collaborate with product managers, designers, and cross-functional stakeholders to ensure implementation satisfies functional requirements.
- Ensure quality through functional and unit testing (Jest), maintaining accountability for the code lifecycle including bug fixes and enhancements.
- Improved application performance via code splitting, lazy loading, and memoization, achieving 50% faster page load times validated through performance testing.
- Work closely with local and remote teams to understand business requirements and deliver features within timelines.

vmedulife Software – UI Developer (ReactJS) Feb 2023 – Mar 2024, Pune

- Developed scalable React.js UI features for a large-scale ERP platform (admissions, fees, financial reporting), working with stakeholders to define functional requirements.
- Designed and shipped complex, responsive form-based workflows that cut manual processing time by 35%, tracking task progress and flagging blockers proactively.
- Integrated RESTful APIs with TypeScript/JavaScript; implemented OAuth/JWT authentication and secure coding practices.
- Ensured quality through unit and functional testing (Jest, React Testing Library) as part of an Agile/Scrum development cycle.

Kylo Apps – UI Developer (ReactJS), SDE-1 Dec 2022 – Feb 2023, Delhi

- Developed responsive, component-based React.js UI features for multiple SaaS applications, collaborating with designers and product stakeholders.
- Maintained code quality through cross-browser testing and code reviews on tight Agile timelines.

Education

Vishwakarma Institute of Technology – B.Tech, Instrumentation and Control Engineering 2018 – 2022, Pune

Certifications

The Web Developer Bootcamp – Udemy (Colt Steele), 2022 | The Ultimate Next.js 16 Course – JS Mastery (Adrian Hajdin), 2025
